

General purpose

To introduce myself (as a Math PhD student) to the class

Specific purpose

To help the audience understand some culture of the Math PhD students

Thesis statement

Being a Math PhD student, I have some unique experience that other people don't have

3 Main points

1. Math PhD students over-consume coffee daily
2. Math PhD students spend most of their productive time doing things seemingly trivial
3. Many people have misunderstanding to Math or mathematicians
